

**DIET, 2<sup>nd</sup> Campus**  
**Ramgorh, Jhargram**  
**Subject: Our best practice in the 2<sup>nd</sup> Campus**

**Introduction:**

One of the important method of learning, specially for elementary level, be play way of education. It insists the activity based and integrated learning too, The modern approach however, in earlier the great philosopher Swami Vivekananda said – ‘before you read Geeta, make sure you are strong and to become strong you must play football.’ Remembering above we consider here ‘practicing football’ as best practice. Obviously there is an efficient sports teacher in the campus. We the other use to help him to make the practice successful. These are so many objective be underlying within this practice. Out of these emphasize the two essential practices - the integrated learning and activity based learning. It is very simple to understand that football practice develops the mental and Physical health and fill with activity. Therefore our interest is going to integrated learning. We are involved in elementary education. The main subjects are here – language, arithmetic, science - natural and social. If we consider language than it may say that football is itself an English word. As football be an international game, it is easy to increase vocabulary of different terms in different languages. A great advantage to learn arithmetic through playing football. For better realisation a diagram to presenting here as follows –

## Major objectives:-

1. To develop mental and physical health.
2. To emphasize integrated learning.
3. To insist activity based learning.
4. To enhance social and cultural aspects of the nations.
5. To learn outside the closed classroom.

## Highlights of the initiative:-

DIET be a Teachers Training Institute, all trainee teachers are staying in the hostel. This is an major advantage to nurture the student beyond of the specific time limit. So our efficient lecturers always try to cover the curriculum properly with different procedures and techniques within and without classroom. As a part, considering the contents we have taken here the method playing of education for both the students - boys and girls.

## Impact mode:-

DIET, the district Institute covers the teacher training of the whole district. So our present in initiative will make impact on the students and the teachers out that throughout the district.
